1. This Office action is in response to the application filed 9/30/03.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-20 are allowed.

4. The following is an examiner's statement of reasons for allowance:

To send vehicle information wirelessly to a central location is not new in the prior art. The communication system taught by **Matsuura** [U.S. 6,025,776] sends out response data such as a failure self-diagnosis to a transponder unit through a communication line in response to a request. However, one distinguishing characteristic of the present application is receiving a list of diagnostic trouble codes at the telematics unit. None of the prior art devices receives a list of trouble codes from an outside source.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Usui et al [U.S. 6,006,146] compares an actual vehicle state with an expected vehicle state.

Dix [U.S. 6,677,854] downloads vehicle information to a remote maintenance computer via a wireless link.

Funkhouser et al [U.S. 6,807,469] uses a hand-held data acquisition device for auto diagnostics.

Kawai et al [U.S. 6,819,236] includes an on-vehicle monitor and communicator.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John A. Tweel, Jr. whose telephone number is 571 272 2969. The examiner can normally be reached on M-F 10-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jeff Hofsass can be reached on 571 272 2981. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
